

SENIOR ENGINEER/PROJECT MANAGER

Location: Brandon, MS

Position Type: Full Time

Education: Bachelor's Degree

Experience: 10+ years

The Position:

We are seeking a Senior Engineer and/or Project Manager with 10+ years of experience in engineering design and/or project management. Candidates with a background in water/wastewater and experience with municipal and public sector clients are preferred. Responsibilities will include coordination with support staff to assist with and oversee projects from funding and design to construction admin and closeout. Responsibilities will also include communicating with clients for current projects and new opportunities. The ideal candidate will be proficient in AutoCAD and Microsoft Office. Experience with KYPipe and/or WaterCAD is a plus. Candidate must be a PE licensed in the State of Mississippi or able to obtain licensure within 90 days.

If you are a motivated, detail oriented, problem solver with great communication skills, you'd be a great fit on our team!

Who we are:

Heflin Engineering is a small, but rapidly growing civil and environmental engineering firm located in Brandon, MS. For nearly 30 years, we have provided design and consulting services for municipalities, water systems, and industries throughout Mississippi. Our services include feasibility studies, planning, civil, water, wastewater, stormwater, recreation, building, and construction administration. Beyond engineering, Heflin is highly regarded for its expertise with strategic project funding – assisting our clients with their projects from concept to closeout.

Compensation & Benefits:

Compensation will be based on the chosen applicant's skills and experience. Benefits include medical insurance, retirement plan, paid holidays, paid time off, and an incentive plan.

Interested candidates should email their resume to austin@heflinengineering.com.

Heflin Engineering, LLC is an Equal Opportunity Employer.
